Patriotism

Patriot signifies a person who loves and cares for their country. If I were to add more details about the meaning of a patriot, it is the feeling of love, devotion, and a sense of attachment to a country or state. My connection to being a patriot is how I am a military child and come from a different state. I just recently came to Virginia. I feel everyone in the York County area or at least the people I have met has given me a warm embrace and showed me how loving it is for our military community. I enjoy and participate in their sense of patriotism. If I were to describe a few ways I like to participate in patriotism it would be how I am trustworthy and honest to my country, I follow the country's laws given, and how I have learned a lot about the history in the U.S. and how it affects all of us and how important it is to everyone.
